27 April 1965

MEMORANDUM FOR : See Distribution:

SUBJECT : SIGINT Equipment Manual

1. We have maintained for some time a SIGINT equipment manual. This manual describes the equipment which we have developed and which is available for use.

2. I discussed the maintenance of this manual today with AD/OEL, Executive Officer and it was agreed that future maintenance of this manual could be accomplished via our programming techniques now handled by the Staff. Specifically, when a contract is completed, the Programs Staff of OEL will request the technical particulars from the cognizant project engineer and distribute the appropriate new or revision sheets for incorporation by the SIGINT manual holder..

3. I think this procedure will keep the manual up to date and will distribute the responsibility more evenly among the engineering and staff personnel. You may anticipate instructions shortly which will cause this to happen.
